Some student Success stories!

Since Shakela started at MNIC in the Fall of 2009, she has participated in and excelled at two internships: Tree Trust YouthBuild and MNDOT (the MN Department of Transportation). Shakela completed a year of paid internship at Tree Trust and became a leader and role model to her classmates. MNDOT has hired her on fulltime for when school resumes, and she will attend Normandale Community College doing PSEO in the evenings until she graduates in Spring of 2011.

Adrian completed the Red Cross and CPR training in the Spring of 2010 and went on to the PCA (Personal Care Assistant) training. Adrian is an inspiration to his fellow classmates, because he always came to school on time with a great attitude that landed him the MNDOT internship this past summer.

Mohamed B graduated from MNIC is now enrolled in Lake Superior College following his passion in math and hoping to major in engineering.

Last year, students who started in the fall with MNIC and stayed through the year, averaged academic gains of nearly two years!

How to Register!

Register in person at any on our sites between Noon and 3:00 Monday through Friday

Unity 2507 Fremont Avenue North
